Report of the Board of Education

The school board respectfully submits the annual report for the year ending January 31, 1918.

The attendance of the schools has not been up to the standard this year, owing to the epidemic of measles in the earlier part of the year, and later scarlet fever together with a shortage of fuel compelled us to close the schools indefinitely, but we are in hope to be able to open within a short time.

Our primary school is in charge of Miss Trefethen, and keeps its usual high standard.

The grammar school is in charge of Miss Chapman, who is doing excellent work as we think all will agree. This room was newly painted and papered this year, besides installing a new stovepipe, which puts it in very good condition inside.

According to Public Statutes, Chapter 88, Section 2, as changed by Chapter 52, Laws of 1909, we hereby notify the selectmen that the following sums are required for the year ensuing :

| | |
|--------------------------------------|----------|
| Regular school money required by law | \$750 00 |
| High school tuition | 500 00 |
| Text books and supplies | 100 00 |
| Flags and appurtenances | 10 00 |

We further recommend the following sums be raised :

| | |
|--|----------|
| Additional for general school purposes | \$300 00 |
| Salaries | 55 00 |

Respectfully submitted,

FRED R. NOYES,
JAMES E. SYLVESTER,
JOSEPH T. HARRIS,

School Board.

Report of the Water Commissioners

To the Citizens of the Town of New Castle, N. H.:

The water commissioners herewith submit the following report—

Owing to the difficulties in obtaining books, etc., pertaining to the water department, we have been put to a great disadvantage in collecting the money due the water department for service pipe. In our opinion this money should have been collected by the former board of commissioners, as we have found many errors in their accounts which could have been adjusted better by them than us, they having had sufficient time to attend to the matter.

Owing to these difficulties we have been unable to collect for water service.

Considering the nearness of the pipe to the surface in many places, we would advise having it lowered, thereby saving much expense from thawing frozen pipes.
